RL-JR Race Label Junior

**For Round, Straight
Cylindrical and Slightly
Tapered Containers**

Capabilities

The Race Label Junior machine was designed for labeling **smaller bottles, jars and a variety of containers**. These specific styles can be **round, straight cylindrical and even slightly tapered**.

This affordable, fast, accurate and spot-on labeling "beast" is ideal for bath and body care, pharmaceutical and personal care, food and beverage, health and wellness and hemp and CBD container labeling.

The RL-JR can also apply labels to the smallest of vials, lip balms, essential oil bottles, cosmetic tubs, tins and tubes with the optional Lip Balm and Small Vial Attachment. Oval lip balms, square nail polish bottles, boxes and lid labeling are also possible with a Custom Nesting Plate.
