# Labeling Machines for Small & Large Businesses

- *Race Label Solutions* offers an extensive line of cost-effective, manual labeling machines that can be easily adapted to **label almost any type, shape, or size container**. The patented, easy to operate design of all *Race Label Solutions* machines makes them extremely accurate and affordable, and provides us with the opportunity to customize your machine to label even the most unique bottles and containers.
- Our sturdy, manually-operated machines suit **high volume labeling runs** for small businesses and can accommodate specialty runs for larger companies.
- Because our machines require no electricity, all *Race Label Solutions* machines **can be exported to any country**.
- At *Race Label Solutions*, we provide **dependable, eco-friendly** labeling machines for whatever your labeling needs may be!

# *Labeling Machines for Small & Large Businesses*

**Our industrial labeling machines provide complex labeling solutions for many different types of commercial industries, including:**

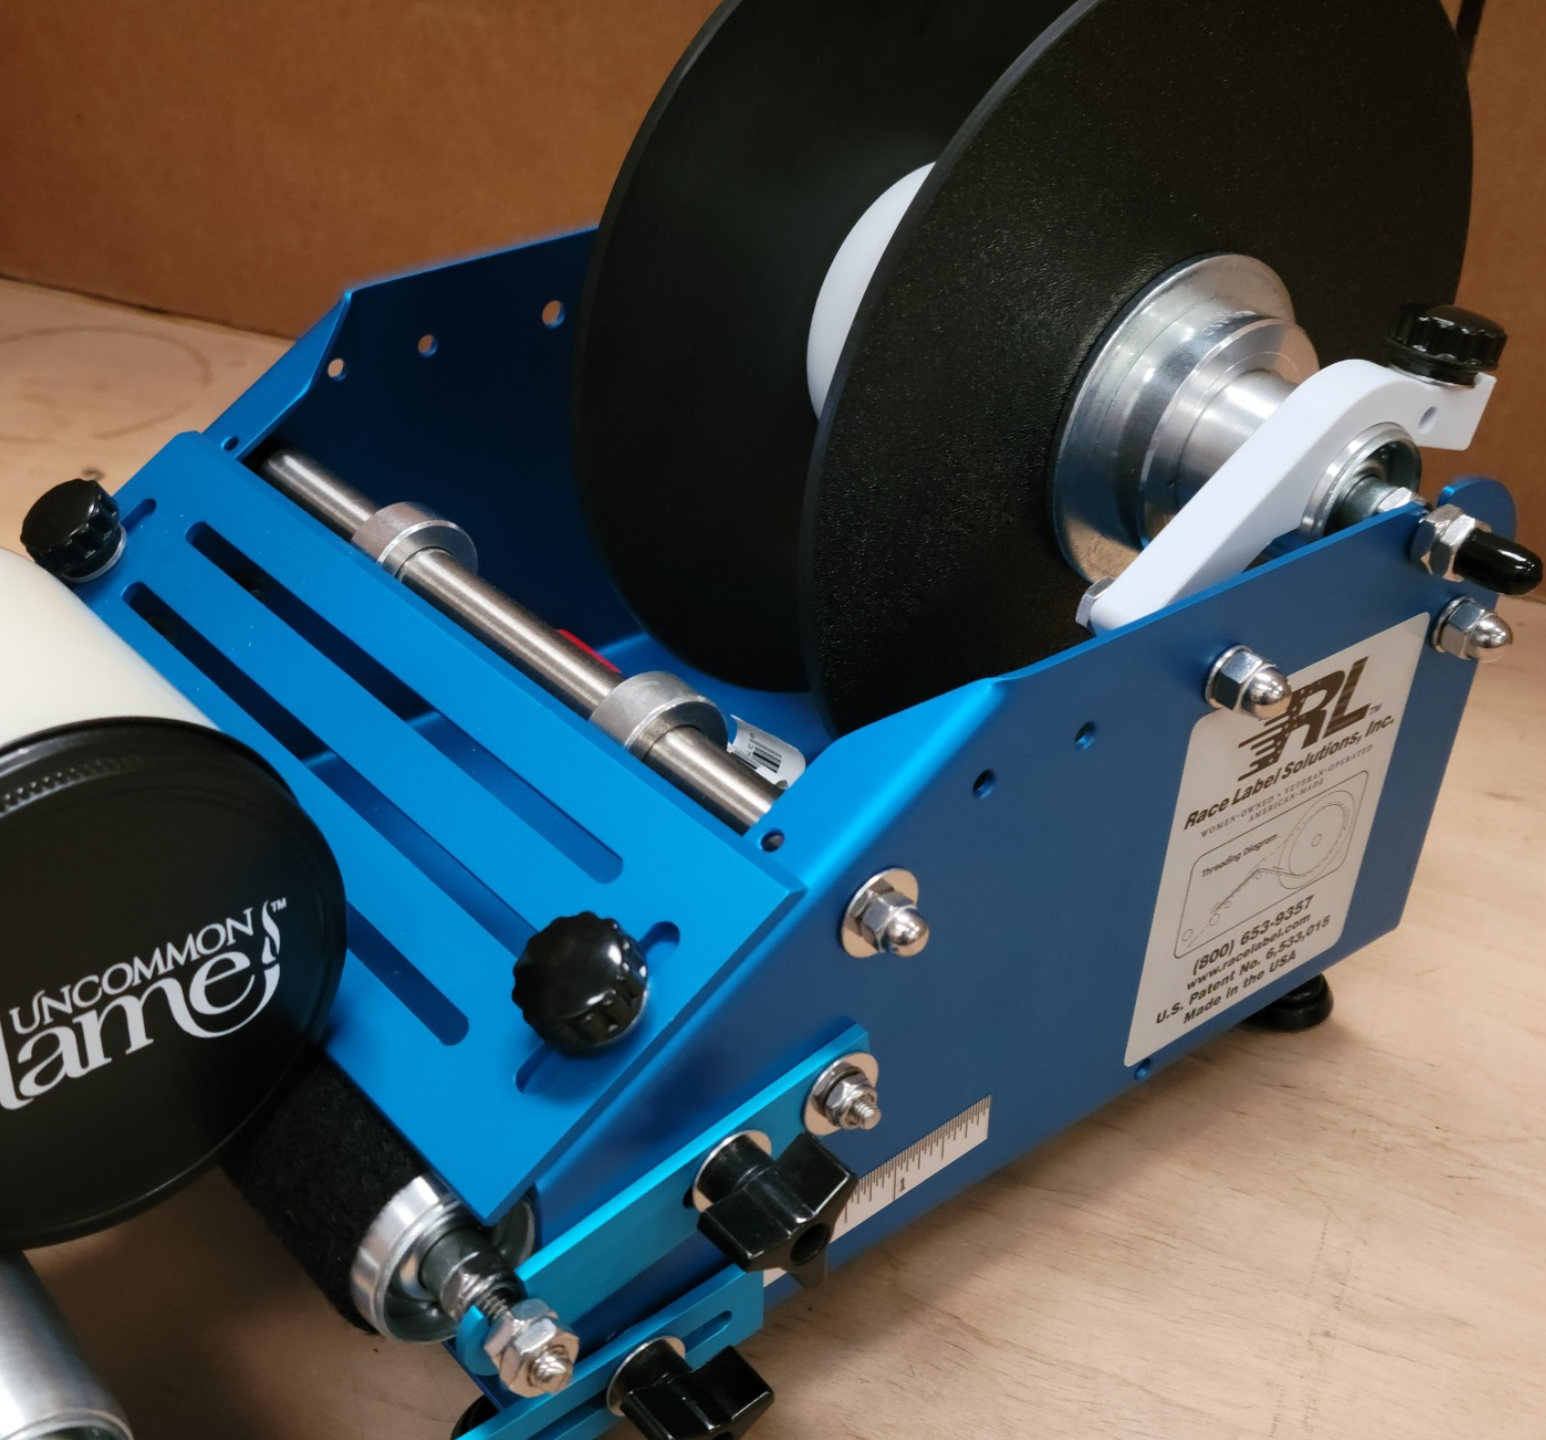

- Wineries
- Breweries
- Distilleries
- BBQ and Hot Sauce Companies
- Holistic Medicine Suppliers
- Bottles and Craft Beers
- Candle and Soap Companies
- Salsa Manufacturers
- Salad Dressing Companies
- Teriyaki Sauce Manufacturers
- Olive Oil Producers
- Spice Manufacturers
- Soda Manufacturers
- Beauty and Make-up Manufacturers

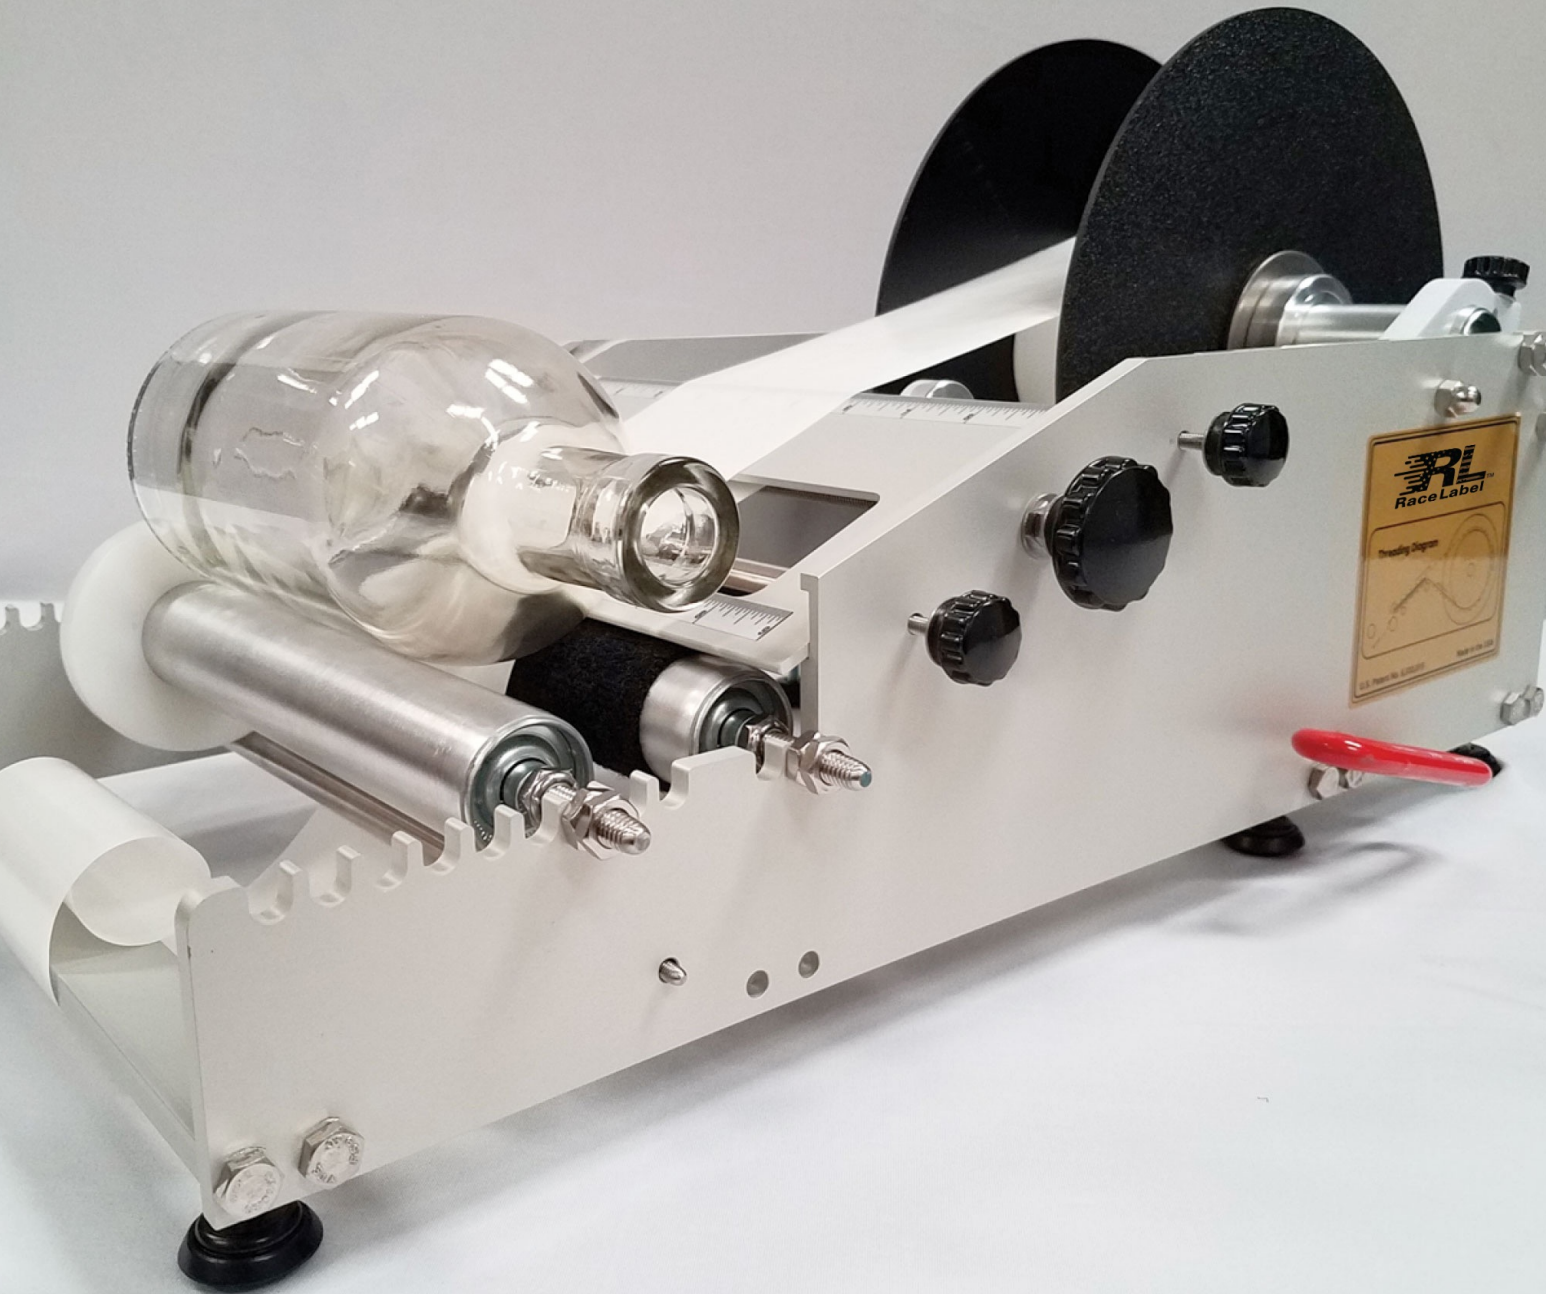

## **Race Label Junior** **Model RL-JR**

The Race Label Junior is the smallest, lightest, and least expensive in the Race line of label applicators and has been the right choice for many companies in need of labeling smaller bottles or containers. The Race Label Junior has an optional attachment for very small vials and lip balms and a separate attachment for smaller, odd-shaped and square bottles and very slightly tapered containers.

- **USES: Lip balms, essential oil vials, plastic bullet bottles used for soaps, lotions and hot sauces.**
- **\$1,100 Standard** (only straight round containers, label max height: 4.5")
- **\$1,500 w/Lip Balm & Small Vial Adaptor**
- **\$1,600 w/Custom Nesting Plate**
- **\$1,700 w/Lip Balm & Custom Nesting Plate**

## ***Race Label Standard Applicator Model RL-1***

The RL-1 is used for applying labels to straight cylindrical bottles, containers, cans, and jars. The well-crafted, heavy-duty RL-1 is extremely easy to operate, fast, affordable and effortlessly applies labels with spot-on perfection. The RL-1 is capable of applying a single, semi-wrap, full wrapping or front and back labels. Front and back label application requires the optional Gap Guide. The RL-1 is also available in a WIDE format (RLW-1) for taller labels and taller bottles (with a web width from ½" up to 12.5").

Only for straight, round containers, not taper capable.

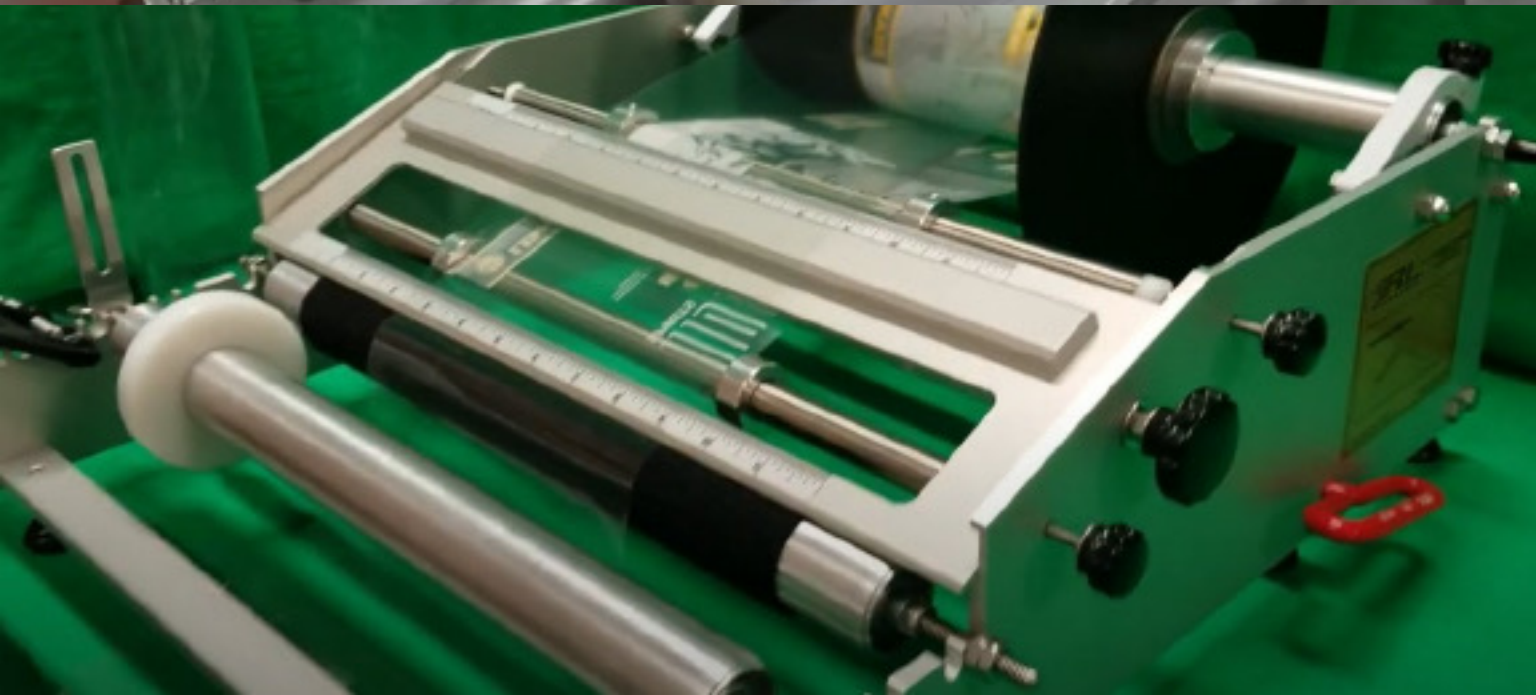

- **\$1,750 Standard**
- **\$2,000 w/Lip Balm Adaptor**
- **\$2,350 RLW-1 WIDE Format**

***Race Label Standard Applicator  
WIDE Format  
Model RL-W1***

The Race Standard in WIDE format can easily apply tall labels to straight cylindrical bottles, containers, cans, jars and much more. The well-crafted, heavy-duty RL-W1 is extremely easy to operate and capable of applying a single semi-wrap, full wrapping or front and back labels to straight cylindrical bottles and containers for labels up to 12".

- **\$2,350**

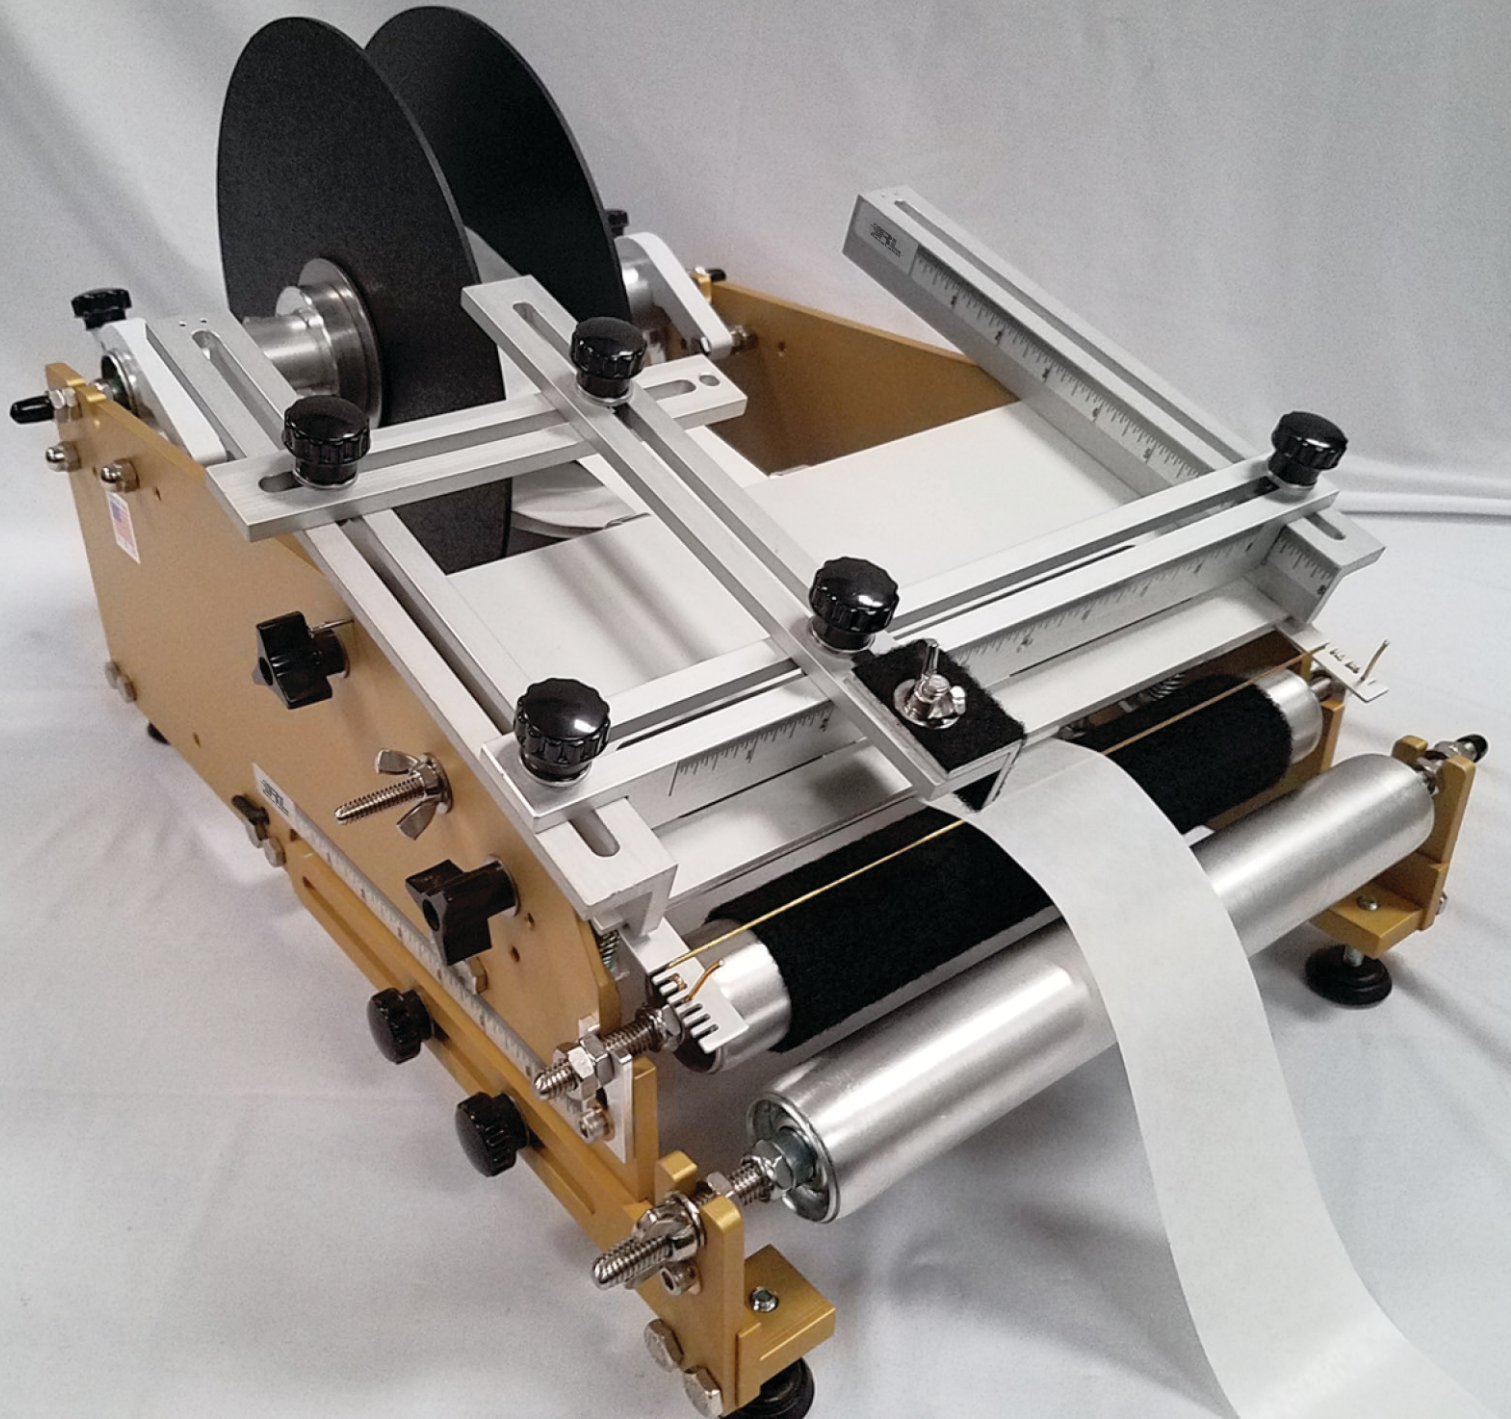

## ***Race Label Taper Capable Model RL-TC***

One of our most popular machines. The RLTC was specifically designed to label tapered bottles and containers, such as Bordeaux, Burgundy and Champagne-style bottles. Tapered bottles - whether a slight taper or a radical taper - can be difficult to label, but we have designed a specialized label application machine that will apply your labels effortlessly. The RL-TC not only handles tapered bottle applications but will also label straight cylindrical bottles and containers. Also available in a WIDE FORMAT, the RLTC-W is used for taller tapered bottles and labels for web width up to 12½”.

**Tapered bottles:** Front & back only, no wrap. **Straight container:** Full wrap or front & back.

- **\$2,195 Standard**
- **\$2,395 w/Lip Balm adaptor**

## **Race Label Taper Capable w/Spring Plate Model **RLTC-SP****

The RLTC-SP is our Race Label Taper Capable machine equipped with an optional attachment called a “Spring Plate.” This innovative add-on allows you to label squares, flats, ovals, rectangles, hexagons, and many other non-cylindrical containers. It will also label straight cylindrical and tapered cylindrical bottles, jars and containers. It can be customized to accommodate the most challenging specialty and uniquely styled bottles and containers. Most versatile machine for nearly all shapes. Limited on label size and bottle height. Bottle cannot be taller than 9” (with cork), labels cannot be taller than 6.5”

- **USES: Honey bears, flat or oval containers, faceted bottles and jars, hexagon jam and jelly jars, salad dressing and condiment bottles and containers, tea tins, stand-up pouches, pinch grip containers and F-style jugs (hexagons, ovals, squares, tapered squares, etc.)**
- **\$2,965 Standard**
- **\$3,365 w/Lip Balm & Small Vial Adaptor**

## ***Race Label Taper Capable w/Spring Plate WIDE Format Model **RLTCW-SP*****

The RLTCW-SP is our Race Label Taper Capable machine equipped with an optional attachment called a “Spring Plate.” This innovative add-on allows you to label squares, flats, ovals, rectangles, hexagons, and many other non-cylindrical containers. It will also label straight cylindrical and tapered cylindrical bottles, jars and containers. It can be customized to accommodate the most challenging specialty and uniquely styled bottles and containers with up to 12” tall labels.

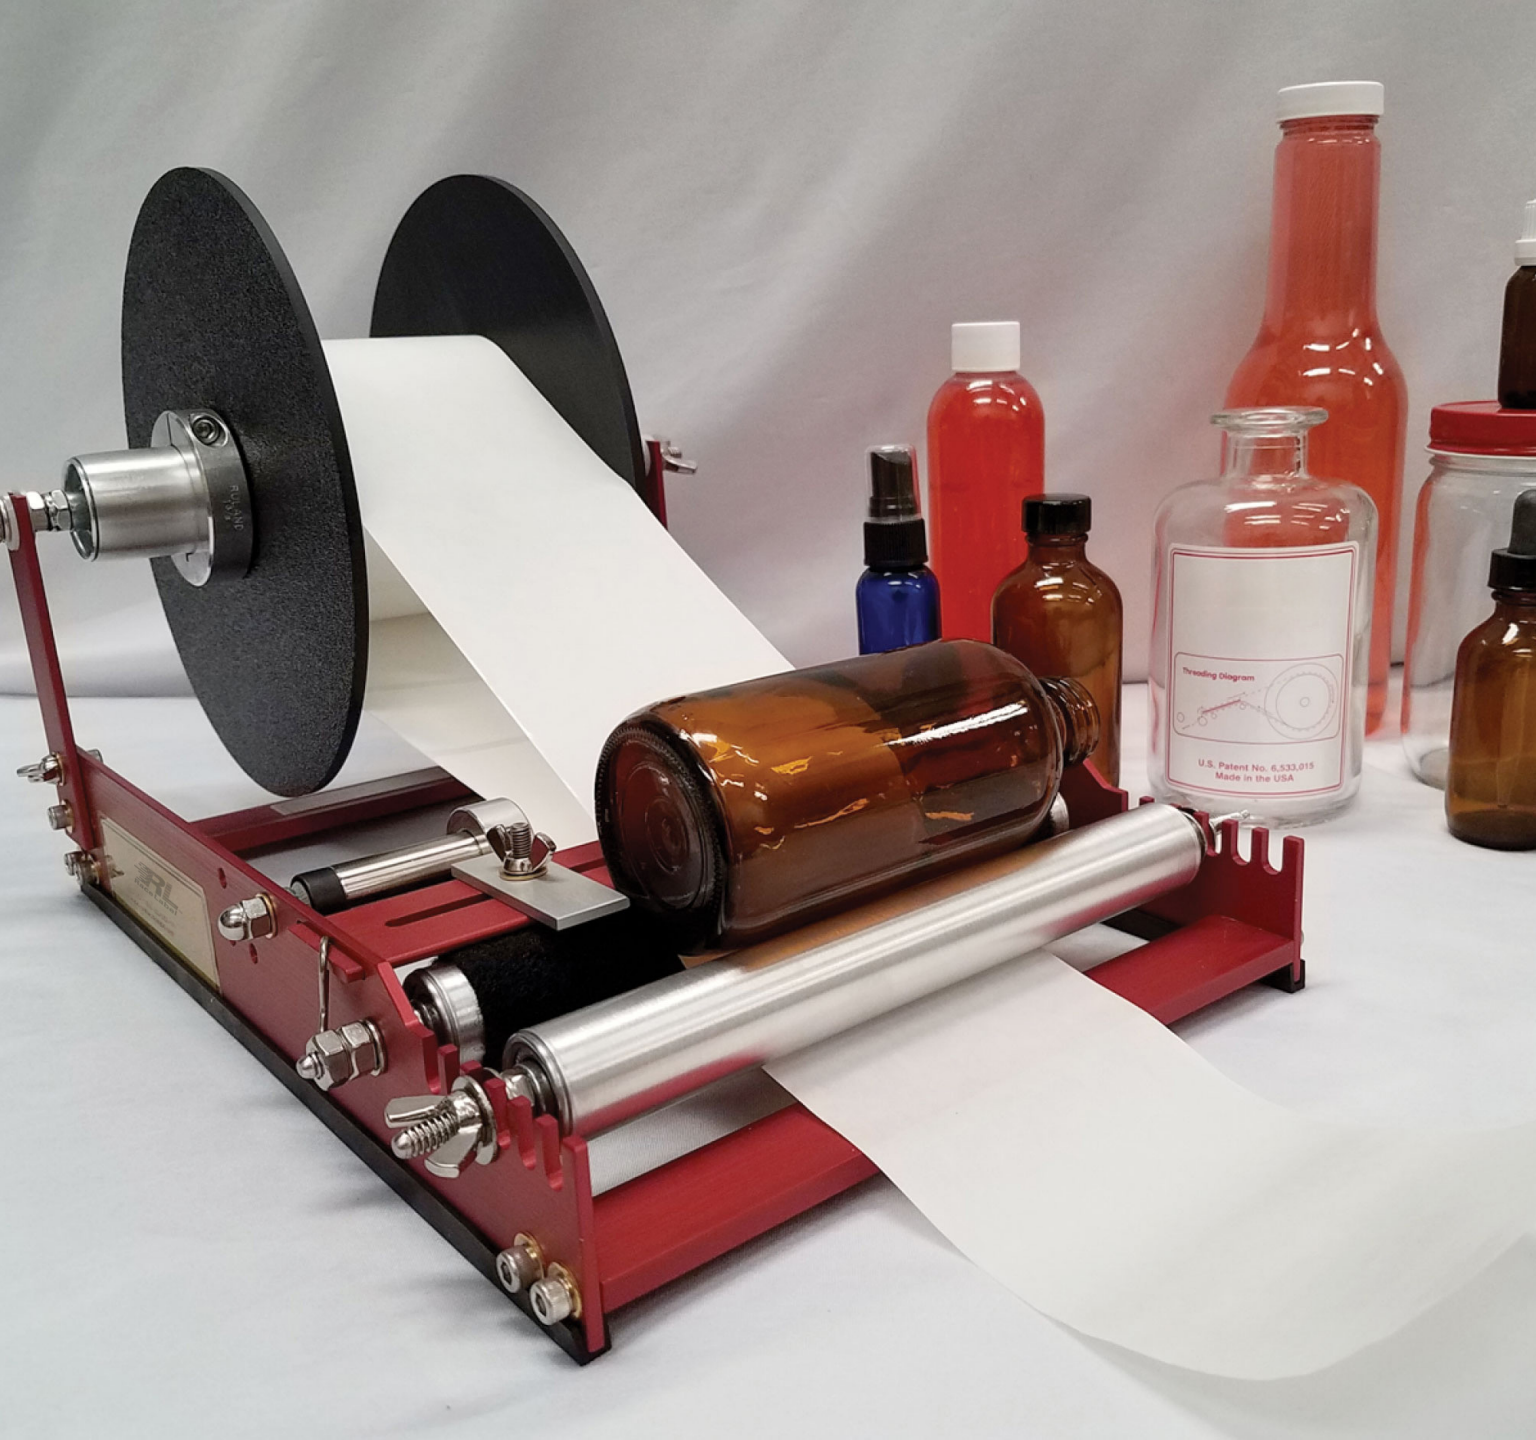

- **USES: Honey bears, flat or oval containers, faceted bottles and jars, hexagon jam and jelly jars, salad dressing and condiment bottles and containers, tea tins, stand-up pouches, pinch grip containers and F-style jugs (i.e. anti-freeze, 2.5-5 gallon jugs)**
- **\$3,625 Standard**

## ***Race Label Red Cyclone*** ***Model RL-RRC***

The Race Label Red Cyclone is used for labeling straight cylindrical bottles, containers and jars. This little gem is lightweight, portable, economical and easy to use! For companies with a multiple product lines, the affordability factor makes having several of these machines very beneficial. Not only will this save time, but will increase your business's productivity and efficiency! This machine is available in 2 different modes. Bottle size max 4" diameter, MUST be straight, not taper capable. Label max 5"

- **\$550 Standard**
- **\$750 w/Lip Balm & Small Vial Adaptor**

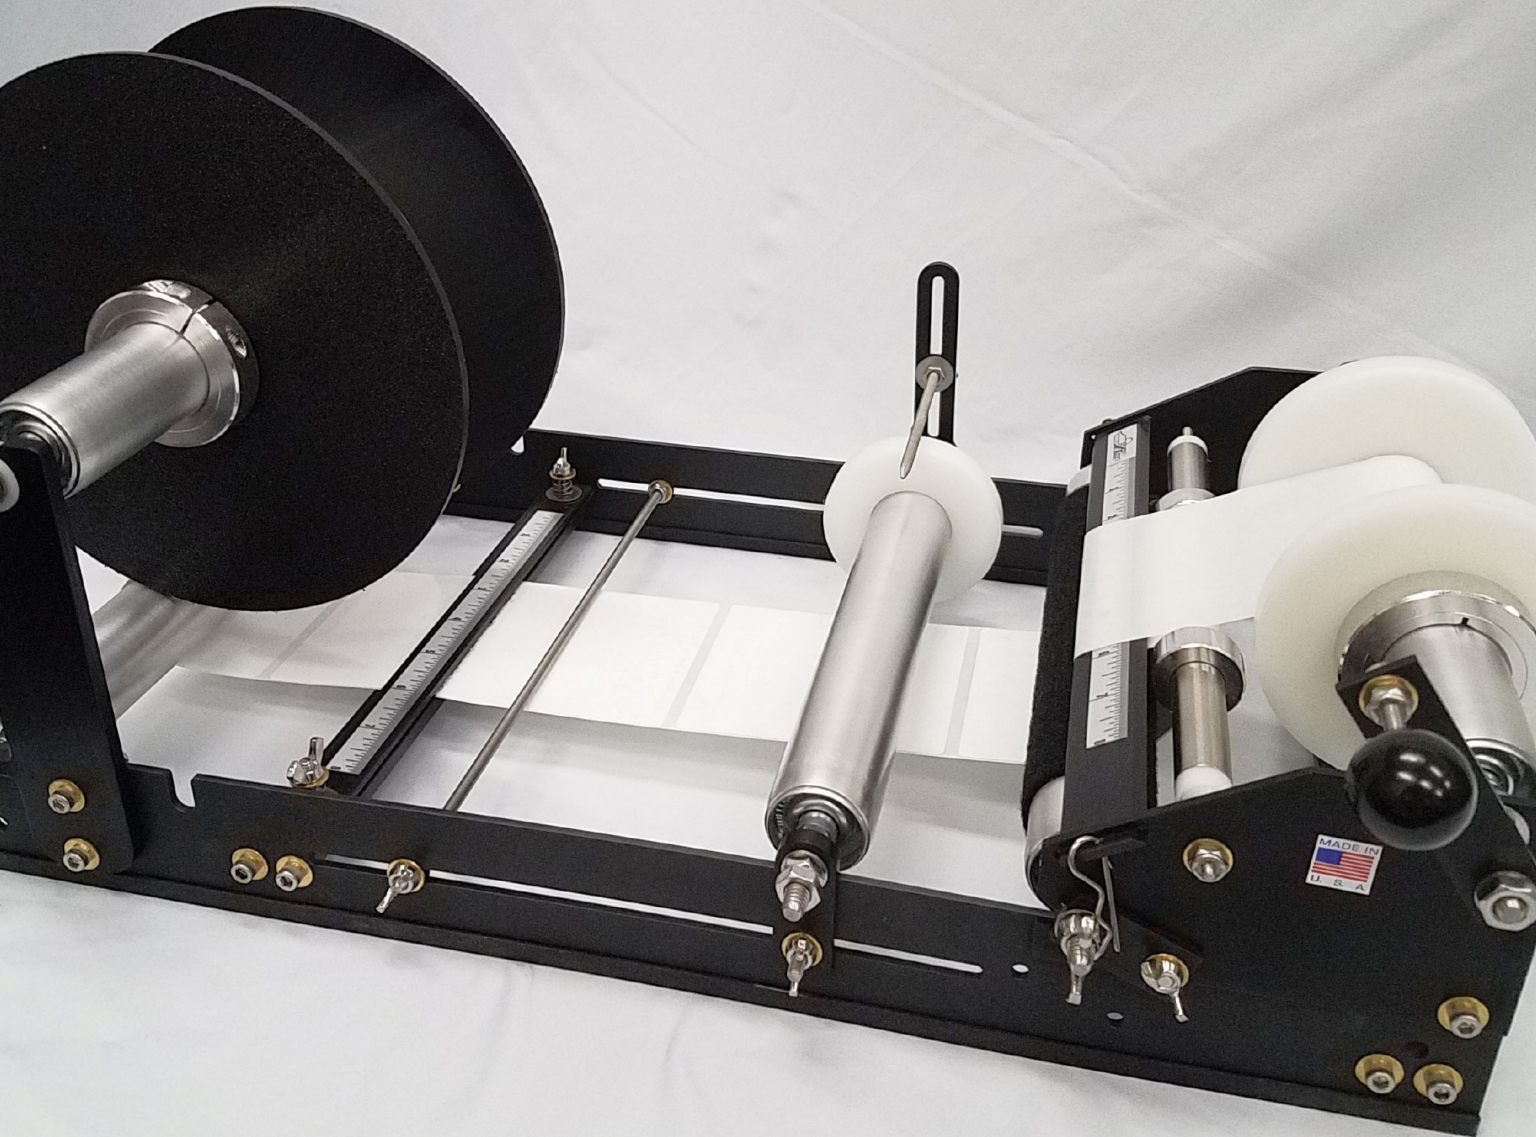

## *Race Label Razor* **Model RL-RZ**

The RL-RZ is very light, easy to thread, and produces accurate results quickly. A unique feature of this machine is that it is **capable of working with many different labeling formats**, including roll stock of any core size, labels in a fan-folded stack (the only machine that can run **fan-folded labels**), or labels streaming directly out of a printer. It is ideal for labeling small quantities or short runs. Straight containers only, best for front & back labels with gap guide, can do full wrap. Not taper capable, best for wineries with straight bottles.

- **USES: Wine bottles and bottles with front and back labels alternating on the same roll. Best machine to do front & back labels. Can handle larger size containers, up to 6.75" tall labels. Can connect to label printer.**
- **\$1,500 Standard**

## ***Lip Balm & Small Vial Attachment***

Attachment that allows you to apply labels to small straight cylindrical and tapered vials, essential oil bottles, cosmetic tubs, tubes, tins, boxes, pouches and lip balms.

**Industries like Health & Wellness, Bath & Body, Pharmaceutical & Medical, Homeopathic & Medicinal, CBD & Cannabis** will benefit from this customized addition to their Race Label Application machine. Labels are easily applied to the smallest of containers producing quick, accurate solutions that enhance your brand and will surely power success.

- **Available on models:**  
**RL-JR, RL-1, RL-TC, RL-RRC**

# Two-Year, All-Inclusive Warranty

Race Label Solutions guarantees all of our label application machines for 2 years against any failure caused by any defective part or by any defect in our workmanship. This guarantee is “bumper to bumper.” We will replace any defective part free of charge and will fix any malfunction caused by us, on any machine, free of charge. We do not warranty our machines against abuse, misuse or accidental breakage.

Race Label Solutions also offers a 30-day warranty on the performance of the machine. If at the end of 30 days you are not satisfied with the machine or if we have misrepresented the machine’s capabilities in any way, you may return it for a full refund, providing it is returned in its original box and is in its original condition.
